

ALTABLEUE-10/16

System for applying Hot Melt adhesives

System for applying Hot Melt adhesives on bartops assembling machines. System with high-precision volumetric pump and flow meter for glue control.

Source

Power Supply
200/240V (1Ph+N)
50/60Hz (2 or 4 hoses)

Power

Installed Power:
2 hoses: 3.9/4.4 kW
4 hoses: 5.9/6.4 kW

Compressed Air

Compressed Air Supply
5 to 7 bar

Noise

< 70 dB

Cadence

Nominal Cadence
NA

General Features

- ✓ Pad glue feeder;
- ✓ Glue control system applied by flowmeter injection;
- ✓ System to apply points with control of quantity/volume of glue;
- ✓ Equipped with volumetric pump for high pressure;
- ✓ Scale of working temperature 40° to 230°C;
- ✓ Scale of ambient temperature 0° to 50°C.
